

## SUNCUE VENTILATING GRAIN DRYER

**MINI SKS-480DM**  
Diesel udara panas langsung

**MINI SKS-480C+M**  
Clean hot air dari pembakaran diesel

**SKS-480D**  
Diesel udara panas langsung

**SKS-480DP/DG**  
Clean hot air dari pembakaran gas

**SKS-480C+**  
Clean hot air dari pembakaran diesel

**SKS-580M**  
**SKS-580MP/MG**  
Diesel udara panas langsung  
Clean hot air dari pembakaran gas

**SKS-580CG**  
**SKS-580CGP/CGN**  
Diesel udara panas langsung  
Clean hot air dari pembakaran gas

**SKS-580C**  
Clean hot air dari pembakaran diesel

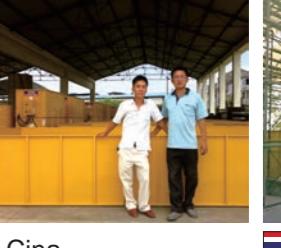

**SKS-580B**  
Indirect hot air dengan bahan bakar biomassa

**SKS-580B+BB-18**  
Pembuangan abu otomatis  
International Chocolate Awards in London  
GOLD MEDAL  
Mesin pengering SUNCUE SKS-580B  
mengeringkan biji kakao, mendapat medali emas

<b>Indirect hot air dengan bahan bakar biomassa</b>	Menggunakan bahan bakar biomassa sangat cocok dengan produk pertanian yang memerlukan udara panas langsung yang bersih. Modal pengeringan terendah
Clean Hot Air untuk makanan yg bisa langsung dikonsumsi	Direct Hot Air untuk produk yg tidak dapat langsung dikonsumsi
<b>Single layer</b>	
Beras, bekicot, biji kopi, biji kakao, black soybeans, kacang merah, kacang hijau, kedelai, red lentil, bibit jagung, sesame, chia seeds, rapeseed, camellia seeds, cassia seeds, mustard seeds, gandum, barley, rye, buckwheat, malt, sorghum, highland barley, red quinoa, pearl barley, labu, broccoli, kol, bawang putih, wortel, radish, calabash, rebung, irisan bawang bombay, irisan bawang, white wood ear, black wood ear, orange daylily, burdock, hard bean curd, nanas, jeruk mandarin, cherry tomato, date, date palm, cranberry, jackfruit, berry, pomelo peels, chenpi, biji anggur, raspberry, plum, lada, basil, cabai, fennel, saffron, vanilla, cardamom, sichuan pepper, kayu manis, lotus seed, kacang tanpa kulit, sacha inchi, biji labu, kuaci, black melon seed, biji melon, acorn, chestnut, candlenut, mawar, osmanthus, bunga chrysanthemum, toona sinensis, daun lemon, rice dumplings leaves, daun lotus, mint, agar, kelp, red algae, rumput laut, gelidium, fried shrimflatcake, paeonia suffruticosa, poppy chell, clove, honeysuckle, weeping forsythia, hawthorn, yam, goji berry, obat herbal, fiveleaf gynostemma, ashitaba, european verbena, dandelion dll.	Padi, bibit padi, chickpea, calavance, bare wheat, buckwheat, golden buckwheat, fagopyrum dibotrys seeds, lengkeng, leci, pineapple stem, cassava chip, kacang, fennel seeds, gardenia, gorgon nut, nutmeg, tsaoko, clove, malva nut, western soapberry, dendrobium nobile, juniper berry, brazil nut, cashew nut, sterculia monosperma, hazelnut, kola nut, almond, apricot, sweet almonds, biji semangka, biji melon, biji labu, biji bunga matahari, bibit kol, bibit arugula, bibit zucchini, bibit ceri tomat, bibit rosemary, bibit berry, bibit cabai, bibit parsley, rapeseed, bibit gherkin, bibit rumput, common rush, mugwort, agarwood, flax, bulrush, gramineus bamboo, ebony, arbor, makino bamboo furniture, bambu, camphor, kapas, bibit kapas, serabut kelapa, goose down, bulu bebek, mosquito repellent incense, sumpit, produk kayu, makanan hewan, matras bambu, produk rotan, pupuk organik dll.
<b>Double layers</b>	Kacang tanah, cassava, kentang, ubi, bottle gourd, bawang bombay, bawang merah, bawang putih, bibit jagung, lengkeng, leci, loquat, pomegranate, nutmeg, brazil nut, walnut, ginkgo, water caltrop, chinese chestnut, pistachio, hazelnut, cashew nut, monk fruit, macadamia, almond, pecan, tamarind, rhodiola, american honeylocust, platycodon, african oil palm shell, kerak kelapa, melon, kayu, wood pearl, rotan, indian sandalwood, kayu lengkeng, incense, grass roll, bulu, lempeng plastik, pellets plastic dll.

\* Gambar dan spesifikasi hanya sebagai referensi. Spesifikasi produk sebenarnya bergantung pada kontrak yang ditanda tangani pembeli. \* Referensi Thermal energi dari LPG: 11,000Kcal/kg atau 22,000Kcal/m³. \* Pipa Natural Gas harus dibuat oleh perusahaan bersertifikat di daerah lokal masing2, tidak boleh membuatnya sendiri. \*Mesin ini terbatas hanya menggunakan minyak tanah berkualitas tinggi dan premium diesel.

**DRYING APPLICATION OF VENTILATING DRYER**

Aplikasi	Padi	Biji kopi	Biji kakao	Biji kopi	Tongkol jagung	Sorghum	Kacang tanah	Kol	Kubis	Bawang merah	Bawang putih	Cassava	Kenari
<b>Sebelum pengeringan</b>													
<b>Sesudah pengeringan</b>													

\* Karena banyaknya jenis produk yang dapat dikeringkan, hanya sebagian produk yang dapat ditampilkan, untuk produk lainnya silahkan menghubungi dealer kami.
